

Using Doc.It with CaseWare

Doc.It® Suite works with CaseWare, resulting in time savings and increased productivity. Several business benefits of the integration are featured in the list below.

JOB STATUS

Manage CaseWare jobs by viewing status at a glance using Doc.It Workflow.

EASY FILE ACCESS

Open CaseWare files directly from Doc.It without first opening CaseWare or browsing for them in Windows.

FAST FILING

File documents in CaseWare using Doc.It type-ahead technology to immediately access the CaseWare file you need without browsing. Save even more time by filing documents in CaseWare without opening CaseWare.

DRAG AND DROP

When you have a CaseWare file open, save time by dragging and dropping files between CaseWare and Doc.It.

CREATE AND EDIT PDF FILES

Use Doc.It to convert any file in CaseWare to PDF. Edit PDFs in Doc.It full-featured PDF editor without purchasing Adobe Acrobat.

EFFICIENT STORAGE

Save storage space and time by compressing CaseWare files without opening CaseWare and navigating to them.

BATCH PRINT

The CaseWare Batch Print application in Doc.It resizes spreadsheet columns automatically and creates hierarchical bookmarks.

CASEWARE INDEX NUMBER TRACKING

Save time when referencing. Doc.It displays CaseWare document index numbers inside the Doc.It PDF Editor. Archived work papers automatically include CaseWare index numbers, resulting in easy navigation.
